AUGUST 2018 RELEASE NOTE

What's New?

Release 2018-08-15

- ◆ This release contains only minor edits to improve clarity and readability.
- ◆ As always, we offer three separate documents for most titles. The "Full" treatment includes bulleted "talking points," an executive summary and a graphic. The "Summary" treatment is just the executive summary and the graphic, and where available, the "Flow Chart" option is the stand-alone graphic. Each selection includes the customizable cover page.
